

children living in poverty, as determined by the SEA.

(d) *Use of best data.* For the purpose of making grants under this section, States must apply on a uniform basis across all LEAs the best data that are available to them on the numbers of children enrolled in public and private elementary and secondary schools and the numbers of children living in poverty.

[71 FR 46753, Aug. 14, 2006, as amended at 73 FR 73028, Dec. 1, 2008]

§ 300.817 Reallocation of LEA funds.

(a) If an SEA determines that an LEA is adequately providing FAPE to all children with disabilities aged three through five years residing in the area served by the LEA with State and local funds, the SEA may reallocate any portion of the funds under section 619 of the Act that are not needed by that LEA to provide FAPE, to other LEAs in the State that are not adequately providing special education and related services to all children with disabilities aged three through five years residing in the areas served by those other LEAs. The SEA may also retain those funds for use at the State level to the extent the State has not reserved the maximum amount of funds it is permitted to reserve for State-level activities pursuant to § 300.812.

(b) After an SEA distributes section 619 funds to an eligible LEA that is not serving any children with disabilities aged three through five years, as provided in § 300.815, the SEA must determine, within a reasonable period of time prior to the end of the carryover period in 34 CFR 76.709, whether the LEA has obligated the funds. The SEA may reallocate any of those funds not obligated by the LEA to other LEAs in the State that are not adequately providing special education and related services to all children with disabilities aged three through five years residing in the areas served by those other LEAs. The SEA may also retain those funds for use at the State level to the extent the State has not reserved the maximum amount of funds it is

permitted to reserve for State-level activities pursuant to § 300.812.

[73 FR 73028, Dec. 1, 2008]

§ 300.818 Part C of the Act inapplicable.

Part C of the Act does not apply to any child with a disability receiving FAPE, in accordance with Part B of the Act, with funds received under section 619 of the Act.

(Authority: 20 U.S.C. 1419(h))

APPENDIX A TO PART 300—EXCESS COSTS CALCULATION

Except as otherwise provided, amounts provided to an LEA under Part B of the Act may be used only to pay the excess costs of providing special education and related services to children with disabilities. Excess costs are those costs for the education of an elementary school or secondary school student with a disability that are in excess of the average annual per student expenditure in an LEA during the preceding school year for an elementary school or secondary school student, as may be appropriate. An LEA must spend at least the average annual per student expenditure on the education of an elementary school or secondary school child with a disability before funds under Part B of the Act are used to pay the excess costs of providing special education and related services.

Section 602(8) of the Act and § 300.16 require the LEA to compute the minimum average amount separately for children with disabilities in its elementary schools and for children with disabilities in its secondary schools. LEAs may not compute the minimum average amount it must spend on the education of children with disabilities based on a combination of the enrollments in its elementary schools and secondary schools.

The following example shows how to compute the minimum average amount an LEA must spend for the education of each of its elementary school children with disabilities under section 602(3) of the Act before it may use funds under Part B of the Act.

a. First the LEA must determine the total amount of its expenditures for elementary school students from all sources—local, State, and Federal (including Part B)—in the preceding school year. Only capital outlay and debt services are excluded.

Example: The following is an example of a computation for children with disabilities enrolled in an LEA's elementary schools. In this example, the LEA had an average elementary school enrollment for the preceding school year of 800 (including 100 children
